Life without labor is guilt. Labor without art is brutality.

- John Ruskin

What John Michael Kohler saw in 1883 when he looked at a cast-iron horse trough was the bathtub that launched a global plumbing company. That pioneering spirit of ingenuity – the kind that sees a bathing revolution in a horse trough – has defined Kohler Co. from its earliest days. A visionary, John Michael Kohler understood the importance of innovative design and an uncompromising commitment to craft and quality. After four generations, we remain a family-owned company, with over 26,000 products and 13,000 patents to our name. Still leading the industry in innovation and quality. Bolder than ever.
Our experience of the world is shaped by the things we encounter every day. From the sideboard that holds our table linens to the juice glasses we use every morning, the objects we choose for our homes reflect who we are and narrate the rhythm and texture of our lives. Balancing artistry and craftsmanship with utility, Artist Editions® products invite you to celebrate beauty and creativity each day.
Art & Craft

Functional works of art, Artist Editions’ decorative products go beyond beautiful design. Handcrafted from the finest materials to be one of a kind, these products are as individual as you are. For the homeowner with an artistic sensibility, decorative products let you create a space that is truly your own.
The Artist Editions line features a number of bathroom sinks that are crafted from natural materials using methods that have been passed down for generations. Honoring the inherent beauty and potential of the materials, Kohler designers and artisans create one-of-a-kind works of art for the home.

Glass
A substance that seems as visionary as it is rooted in daily life, glass has a versatile, fluid nature that lends itself to artistic expression. Cast, spun, slumped or pressed — our glass sinks are crafted by our own small team of artisans in Kohler, Wisconsin. With a precision that rivals watchmaking and a process that can take days, these glassmakers heat, pour and cool glass to capture the right form and texture, color and translucency, shaping basins that range from smooth and sculptural to intricate and patterned.

Bronze
Widely used aboard ships because of its strength and resistance to salt water, bronze is a fitting choice for a bathroom sink. We work with highly skilled craftspersons to transfer each incredibly detailed pattern from mold to casting. Depending on the pattern's complexity, it may take days simply to fabricate the casting. Each sink is smoothed and polished to a burnished living finish that deepens with character over time. When the bronze patina has achieved exactly the look you want, a light coat of wax will slow the color change.

Marble
Carrara and Biancone marbles carry with them a sense of ancient architectural grandeur and exquisite artistry. We've chosen these iconic stones for our Botticelli, Vessels and Purist, Wading Pool, sinks because of their strength and beautiful coloring. We begin by hand-selecting quarried marble with a rich, subtle character that will come to life in the simplicity of our designs. Milled and hand-finished, each sink embodies a unique story of time and place. We strive to honor that history with unembellished forms and meticulous craftsmanship.
The intricate designs we choose for our ceramic Artist Editions® products are inspired by cultures and landscapes from around the world. Kohler designers pore over architecture, textiles, craftwork and fine art to create the patterns and textures our skilled craftspeople painstakingly bring to life.

Patterns
Based on centuries-old methods used to create fine china such as Wedgwood, we work with the leading transferware manufacturers in the world to turn our artists’ sketches into multicolored, multilayered patterns. With detailed precision, each pattern is hand-applied before the fixtures are fired to perfection in our custom kilns.

Metallic Details
Adorning things we value with precious metals is a tradition long practiced in many cultures. Gold and platinum, in particular, have ornamented fine dinnerware for centuries. We’ve extended this practice to several Artist Editions designs, layering gold and platinum into complex patterns for an added sense of formality and sophistication. Metallic patterns are hand-applied and kiln-fired for durability.

Subtle Textures
Textured patterns begin with meticulously carved, in most cases hand-chiseled, plaster molds. From these, we create working molds that produce ceramic sink castings ready to be glazed and fired. To accentuate the details of the relief pattern, we use a translucent glaze. The result is a unique visual and tactile experience. Color pools and deepens where the pattern dips and is softer where the pattern rises. Every nuance comes to life.

The legendary island Antilia was said to have been discovered – in the Atlantic Ocean off the coast of Portugal – by people fleeing Hispania in 734. Today, cartographers know no such island exists, but its intrigue remains. By bestowing this name on the Antilia Wading Pool sink, Kohler celebrates the sense of allure found throughout nature. Slightly curved edges and a subtle, rippled texture convey both the substantial force of nature and its shifting fluidity.
Briolette Vessels

From its roots in ancient India to its discovery by European royals, the briolette – an oval or pear-shaped gemstone cut in triangular facets – remains one of the most distinctive gemstone cuts. Its popularity reemerged during the Victorian era and the art deco period, and today the Briolette Vessels glass sink builds on the tradition. With its uniquely faceted shape, Briolette creates a striking, reflective effect with delicately textured glass.

Facet Vessels

Facet can denote a surface, as on a cut gem, or an object of contemplation. The Facet Vessels sink reflects nuances of both as the eye-catching centerpiece of any bathroom. With its distinctive triangular base, Facet presents an exciting juxtaposition to the traditional funnel shape of spun glass sinks.
Lavinia Vessels

Artisans have used glass for more than five millennia, and today this material remains an essential element in our homes and our art. The Lavinia Vessels spun glass sink marries form and function to celebrate this time-honored craft, capturing the raw perfection of nature. Its organic funnel shape and slender, refined walls provide a showcase for the interplay of light and water.

Mirovia Vessels

According to geologists, billions of years ago a superocean named Mirovia surrounded Earth’s supercontinent. It’s a powerful image: such a colossal surface of water. And it’s the perfect name for a glass sink that celebrates water’s imposing presence. Simple and austere, the Mirovia Vessels sink has a subtle texture that mimics the ripple effect of the water’s surface.
Named for one of the seven beautiful daughters of the giant Alkyoneus in Greek mythology, the Pallene Vessels sink displays an intricate, classically inspired pattern embossed on its exterior. The smooth surface of the sink’s interior lets water flow gracefully over this fine detailing for a strong visual appeal.

Heartening back to long-ago mornings when a splash of cold water from the washbasin was enough to awaken anyone, the Spun Glass Vessels sink blends nostalgic charm with practicality and style. Its translucent, soda lime glass provides a unique, handcrafted look as inviting as a calm, clear pond.

Quiet. Silent. The definition behind this sink’s name evokes a peacefulness coveted in our busy lifestyles. And the design of the Whist sink, combining color with a muted texture, delivers that sense of tranquility. Kallos

Overall 16” diameter x 5¼”
Basin 13¼” diameter x 5¼”
K-2361-B11

Named for the Greek word meaning beauty or grace, the Kallos sink draws on the rich tradition of ancient artistry. Its detailed architectural pattern recalls the coffered dome of Rome’s ancient Pantheon, delicately expressed in spun glass. The fine-cut glass design conceals items stored beneath the sink, while reflecting light and color in captivating patterns.
Runway
Vanity-top sink

While it can’t actually strut down the catwalk, the Runway glass sink has the glamour and confidence to capture the camera’s attention. This vanity-top sink features a rich, dark Raven finish for a look that’s sure to get noticed. Crafted of sleek, shiny glass, Runway reflects its surrounding environment and unifies your design aesthetic.

Tracery
Vanity-top sink
31” x 22¼” x 5½”
K-14017-YM

Named for the stonework elements that support glass in a Gothic window, the Tracery glass sink features a delicate scroll pattern floating just beneath the smooth, glossy surface. This vanity-top sink is crafted with the slumped glass technique, which allows gravity to give shape using the weight of the glass itself – resulting in a gracefully contoured sink.

Kamala Vessels

Kamala names both a Southeast Asian tree and the orange-red dye made from its seeds’ powdery coating. The Kamala Vessels cast-bronze sink evokes the tropical climate where this sought-after medicinal tree grows. Its low-relief pattern of dots, ridges, scrolls and links draws inspiration from patterns created two millennia ago by the Dong Son and others who used a lost-wax casting technique to craft intricate rain drums.

Lilies Lore

Originating centuries ago in Greece, Africa, Mesopotamia and Asia, bronze casting has been associated with classical, Renaissance and even contemporary art. Breathing new life into an old-world material, the cast-bronze Lilies Lore sink takes on a modern shape through an organic and intricate pattern. Its low-profile texture moves beyond traditional feminine representations of lilies for a fresh approach. A living finish, the cast bronze will patina over time to enhance the sink’s beauty.

Brightly hued tulips, in a pleasing contrast to the crackled White background, burst forth with a realism drawn from 17th-century English botanical drawings. The rich pink, green and brown tones bring a fresh optimism to your décor.
Little Briar Rose – the classic folk tale published by the Brothers Grimm in 1812 – tells the story of a young princess cursed to sleep for 100 years until awoken by a prince’s kiss. In the story, the prince climbs through a thick bramble of climbing roses enveloping the castle to reach his Sleeping Beauty. This imagery inspired Briar Rose, a pattern of English roses in soft pink, green and brown on a Biscuit background.

The crisp lines of a leaf. The soft blossom of a flower. Botany has captivated artisans around the world since the earliest times. Botanical Study draws on the rich tradition of botanical art, including the 16th-century Turkish floral designs that graced pottery, rugs and henna body art and 17th- and 18th-century European botanical studies. Intricate graphite tulips and chrysanthemums gently entwine as a butterfly flutters nearby, presenting a graceful portrayal of nature.

Inspired by landscape watercolors, the carved floral pattern and precious-metal accents of Gilded Meadow create a textured, harmonious look. The dramatic conical shape and distinctive design add sophisticated beauty while the neutral palette blends seamlessly with any décor. This vessel-style sink is an elegant focal point in both traditional and modern spaces.
Based on the pattern of a 16th-century porcelain dish from China’s Qing dynasty – a dish that regained popularity in 19th-century America – Garden Bandana features a pattern of blue chrysanthemums, peonies and foliage in reverse on a Biscuit background. Inspired by centuries-old design, Garden Bandana feels remarkably contemporary.

Striking in its simplicity, Soliloquy features a beautiful moth orchid stretching gracefully across a White background. This Asian-influenced design brings a fresh look to an array of settings: serene in a cozy cottage space or remarkably Zen in a modern environment. Blooming in passionate, purple-red tones, the orchid evokes a quiet strength with its understated presence.
In the early 17th century, Europeans revered intricate woodblock-printed, -painted or -stained calico pieces, known as chintz, handcrafted in India. While it took European artists another century to learn the craft, they built on the rich tradition, adding their own interpretations of floral patterns. Inspired by this legacy, English Trellis presents delicate stems gracefully arching – as a vine climbs a garden trellis.
